

Special Issue

Haptic Systems and the Tactile Internet: Design and Applications

Message from the Guest Editors

This Special Issue seeks to address various aspects of haptic technology and the Tactile Internet, including design methodologies, sensor technologies, communication protocols, and application scenarios. It aims to provide a platform for researchers, engineers, and practitioners to exchange ideas, share insights, and discuss emerging trends in the design, implementation, and utilization of haptic systems and the Tactile Internet. Topics of interest include, but are not limited to, the following:

- haptics in virtual reality, augmented reality, healthcare applications, gaming, rehabilitation, human–computer interaction, assistive technology;
- haptics for visually impaired people;
- haptics for people with fine motor problems;
- haptics for education and training;
- haptic interaction design guidelines;
- haptic interfaces for accessibility;
- haptic communication and teleoperation;
- haptic perception and psychophysics;
- haptic feedback in human–computer interactions;
- wearable haptic devices;
- haptic rendering algorithms.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q1 (Electrical and
Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.4 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the second half of 2024).
