

Special Issue

Hardware and Architecture

Message from the Guest Editor

Novel trends in cyber-physical systems, the Internet of things, neuronal networks, and machine learning require new hardware and architecture. The goal is to further reduce energy consumption while simultaneously increasing performance. This Special Issue will cover novel trends, research, and the development of hardware and architecture, and will contribute to the community with different views and solutions.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.
