Special Issue

Wearable Sensors for Biomedical and Navigation Applications

Message from the Guest Editors

This Special Issue will propose and discuss the design of the new intelligent multi-sensor systems for wearable and smart devices for health monitoring, activity recognition and positioning applications. The Special Issue will present the state of the science for the most relevant problems in multi-sensor fusion and integration and search for novel efficient concepts, designs and simulation approaches in the positioning, navigation, and biomedical areas. The Special Issue will contribute to the signal processing of biomedical and navigation research in academic and industrial areas. We invite investigators to submit original research articles to this Special Issue. Potential submission topics include but are not limited to the following:

- Multi-Sensor Systems and Integration;
- Adaptive and statistical signal processing;
- Nonlinear estimation for sensor fusion;
- GNSS/INS Simulation and Testing;
- Machine intelligence for navigation and biomedical;
- Innovative autonomous navigation approaches;
- IoT-enabling technologies, applications, services, and implementations;
- Cooperative navigation.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024).
