The Latest Progress in Computational Electromagnetics and Beyond

Message from the Guest Editor

Computational electromagnetics (CEM) methods are widely used in the analysis of scattering and radiation characteristics of a complex electromagnetic (EM) environment, which are widely used in microwave remote sensing, radar detection, stealth design, and so on. This [Special Issue](#) aims to showcase new ideas, algorithms, and applications related to the concept of computational electromagnetics and beyond. Possible topics are as follows:

- Full-wave and high-frequency computational electromagnetics methods;
- Complicated scattering mechanisms and analysis from antennas and circuit structures;
- The application of electromagnetic simulation methods.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
