

Special Issue

Selected Papers from 2nd International Conference on Maritime IT Convergence (ICMIC)

Message from the Guest Editor

The International Conference on Maritime IT Convergence (ICMIC) will be inaugurated in 2023 with the aim to promote convergence activities of maritime and terrestrial communications, as well as related wireless communications. As maritime communications usually involve ship-to-ship and ship-to-shore communication, maritime ICT technologies will facilitate the maturation and evolution of terrestrial wired/wireless communication technologies for use in future smart maritime communications. More specifically, this Special Issue will focus on addressing the challenges in maritime communications with ICT convergence or advanced wireless communications over various sectors, include the industrial, academic and practical engineering sectors. This Special Issue will be composed of selected papers from the ICMIC 2023 Conference, extended and reviewed to meet the high standard of publication in *Electronics*. Potential topics in this Special Issue include the following keywords but are not limited to these presented topics. We look forward to receiving your contributions.

Guest Editor

Prof. Dr. Wooyeol Choi

Department of Computer Engineering, Chosun University, Gwangju 61452, Republic of Korea

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
