

Special Issue

Low-Latency and High-Security Internet of Things towards 6G

Message from the Guest Editors

This Special Issue brings together experts, scholars and scientific researchers in relevant fields to share their latest research contributions and expert insights. Topics of interest include but not limited to the following:

- Physical layer security of IoT
- Access control in IoT
- Low-latency and high-security authentication protocol
- Resource allocation (to ensure the efficiency of security policies)
- Offloading method design for edge management
- Trust management mechanism in IoT
- Intrusion detection technology for IoT (Artificial intelligence based)
- Blockchain based security for IoT
- Ultra-reliable low latency communications (URLLC) for IoT
- Mobile broadband reliable low latency communication (MBRLLC)
- Protocol design for high reliability low latency IoT
- Quantum cryptography-based low-latency and high-security protocol for IoT

Guest Editors

Prof. Dr. Junhui Zhao

1. School of Information Engineering, East China Jiaotong University, Nanchang 330013, China

2. School of Electronic Information Engineering, Beijing Jiaotong University, Beijing 100044, China

Dr. Changqing Luo

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23173, USA

Deadline for manuscript submissions

closed (15 July 2023)

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024).
