

Special Issue

IoT-Enabled Smart Applications for Post-COVID-19

Message from the Guest Editors

This Special Issue focuses on the role of IoT-enabled smart applications in shaping the future of our life after COVID-19. IoT technologies are opening new possibilities in different and heterogeneous fields, with remarkable applications being associated with the smart applications, continuously evolving and representing the future of smart cities. The main aim is to show how the research and education ecosystem promoting impactful solutions-oriented science related to IoT-enabled smart applications can help citizenry, government, industry, and other stakeholders to work collaboratively in order to make informed, socially responsible, science-based decisions. In addition, we aim to reveal the impact of IoT-enabled smart applications on the quality of our lives in different sectors such as smart healthcare, smart cities, smart education, smart government, and others. This Special Issue covers a wide range of topics on technology and innovation management related to sustainable societies and the internet of things within the scope of sustainability.

Guest Editors

Dr. Mohammed Amin Almaiah

Department of Computer Networks and Communications, King Faisal University, Al-Ahsa 31982, Saudi Arabia

Prof. Dr. Nathir Obeidat

Department of Internal Medicine, University of Jordan, Amman 11972, Jordan

Deadline for manuscript submissions

closed (15 July 2024)

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
