

## Special Issue

# Robotic Applications Using Intelligent Space and IoT Means

### Message from the Guest Editors

This Special Issue focuses on the design of IS or IoT infrastructure and related robotic applications. We invite the scientific community to provide theoretical and applied results in this promising research area. The topics of interest include, but are not limited to, the following:

- Artificial intelligence and machine learning methods in robotics, IS and IoT, e.g., neural networks, fuzzy logic, deep learning, and evolutionary computing;
- Multi-agent approaches using IS and IoT in cooperative robotics and human–robot interactions;
- Localization, mapping, and navigation of robots;
- Decision-making and movement control;
- Robotic applications in smart homes and smart buildings;
- Smart IS and IoT technologies, platforms, and systems for ubiquitous robots;
- Cloud and edge computing for robotic applications;
- Human–robot interactions and creating ambient intelligence in IS and IoT environments.

---

### Guest Editors

Dr. Ján Vaščák

Prof. Dr. Radu-Emil Precup

Dr. Erik Kajáti

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
