

Special Issue

Methods, Challenges and Opportunities in IoT/Network Security for Post-quantum World

Message from the Guest Editors

In this Special Issue, our aim is to present/provide the new methods, advances, explorations, challenges, and solutions in applications, services, implementations of mathematical modelling, computing methods, security research and development for IoT, and 5G and beyond in post-quantum world. The topics in this Special Issue include but are not limited to:

- Quantum secure cryptographic protocols
- IoT security in post-quantum world
- Authentication and access control in IoT/5G and beyond
- Post-quantum cryptosystems for IoT/5G and beyond
- Blockchain-based solutions for IoT/5G and beyond
- Homomorphic encryption
- Search in encrypted data
- Distributed architectures for IoT/5G and beyond security
- Cloud computing security

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
