Signal Processing in Optical Communication System

Message from the Guest Editors

Modern digital signal processing (DSP) covers various fascinating topics, since modern communication systems strongly depend on DSP. To meet the needs of next-generation communication systems, optical fiber communication systems have received great attention. In optical fiber communication systems, signal distortion is one of key problems that should be carefully considered. Methods of pre-coding, pre-processing, impairments compensation, etc., are widely discussed. In this Special Issue, we will focus on collecting new topics, technologies, and knowledge of modern signal processing in optical fiber communication systems. Moreover, other topics related to modern optical fiber communication systems and DSP are also welcome and will be carefully considered.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
