

## Special Issue

# Future Technologies for Data Management, Processing and Application

### Message from the Guest Editor

The Special Issue will solicit an open call for investigators to contribute original research articles as well as review articles that will stimulate continuing efforts from researchers in both the academia and industry sectors to present novel approaches, algorithms and applications on data management and processing for innovative services and new paradigm.

Topics of interest include, but are not limited to:

- Data management for the Internet of Things and sensor systems;
- Mobile cloud computing and data management;
- Context-aware computing for intelligent mobile services;
- Data stream processing in mobile/sensor networks;
- Personalized routing, eco-routing, and routing for mobile networks;
- Data-intensive mobile computing;
- Streams, sensor networks, complex event processing;
- Innovative applications driven by mobile data;
- Mobile data analytics;
- Applications and challenges of in-network computation;
- Data management for connected cars, intelligent transportation systems, and smart spaces;
- Privacy, trust and security in databases;
- Data fusion and integration;
- Knowledge discovery, clustering, and data mining;
- Machine learning for data management and vice versa.

---

### Guest Editor

Prof. Dr. Duc Tai Le

Department of Electrical and Computer Engineering, Sungkyunkwan University, Suwon 16419, Republic of Korea

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
