Special Issue

Advances in Software Engineering and Programming Languages

Message from the Guest Editors

This Special Issue aims to present the latest research related to processes, methods, tools, and applications of software engineering and programming language. We invite authors to submit original and unpublished results of topics including, but not limited to:

- AI for software engineering;
- Agile software development;
- Debugging, fault localization, and repair;
- Dependability, safety, and reliability;
- Middleware, frameworks, and APIs;
- Programming languages;
- Software engineering education;
- Software engineering tools and environments;
- Software maintenance and evolution;
- Software testing;
- Software visualization;
- Validation and verification.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:
JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
