

## Special Issue

# Microelectronics in Korea - Emerging Electronic Components and Electronic Devices in Industrial 4.0 Era

### Message from the Guest Editors

Industry 4.0 has already begun, encompassing an era of new materials and their applications in a variety of electronic systems. This Special Issue aims to provide a comprehensive collection of the state-of-the-art electronic components and devices in Korea. Full research, reviews and high-quality manuscripts addressing new electronic materials, components, devices and systems are welcome. Topics addressed in this Special Issue include the following (but are not limited to):

- Emerging memory devices;
- Electrical energy storage materials and devices;
- 2D materials and electronic devices;
- Micro- and nanodevices for the sensing applications;
- Energy saving, energy storage technologies;
- Battery materials and devices;
- Nanotechnology applications in electronic components;
- Nanomaterials for energy conversion;
- Nanotechnology in electronics;
- Nanocomposite dielectric materials;
- Super capacitors based on nanomaterials;
- Photovoltaics with nanomaterials aspects;
- Nanomaterial-based batteries;
- Nanomaterials for optoelectronic devices;
- Electrochemical capacitance.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
