

Special Issue

Cooperative and Cognitive Wireless Networks with IoT Applications

Message from the Guest Editor

This Special Issue focuses on wireless data and information transmission and signal transfer to facilitate communications among the Internet of Things (IoT) devices of various applications and deployments. Cooperative networks are considered where IoT devices are able to communicate their cognitive information. Efficient network slicing for smart IoT devices communications is a crucial factor for the high performance of cognitive and 6G networks. Topics include, but are not limited to, the following areas:

- data communications among IoT devices
- network slicing in 6G networks
- vehicular cooperative and cognitive networks and applications
- routing and traffic control in wireless networks
- data security in wireless networks
- cognitive sensing in ad hoc networks
- IoT applications
- cooperative networks
- radio power signals transfer and fading

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
