# **Special Issue**

# Transmit and Receive Techniques for Next Generation Massive MIMO Systems

### Message from the Guest Editors

In this Special Issue, we are interested in high-quality submissions that mainly highlight emerging centralized and distributed massive MIMO approaches for future wireless networks. Topics of interest include but are not limited to the following:

- Low-complexity millimeter wave and massive MIMO architectures (e.g., hybrid);
- Analog-digital transmit and receive beamforming;
- Cooperative cell-free massive schemes;
- Distributed and centralized transmit and receive schemes:
- Channel modeling, estimation, and tracking for massive MIMO systems;
- Physical layer security in the context of massive MIMO systems;
- Reconfigurable and large intelligent surfaces;
- Energy-harvesting techniques for massive MIMO systems;
- SWIPT techniques in massive MIMO systems;
- NOMA schemes for massive MIMO and millimeter wave systems.

Welcome to submit your latest researches to our Special Issue!

### **About the Journal**

### Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
