

## Special Issue

# Application of Machine Learning in Graphics and Images, 2nd Edition

### Message from the Guest Editors

Computer graphics and image processing technologies have been widely used in production processes in society today, as well as other aspects of daily life, offering solutions with greatly improved efficiency and quality. Meanwhile, the last few decades have witnessed machine learning modes becoming effective and ubiquitous approaches applied to various challenging real-world or virtual tasks. Both the fields of image processing and computer graphics are important machine learning application scenarios that have stimulated high research interest and brought about a series of popular research directions. Topics of interest include all aspects of the application of machine learning to graphics and images, but are not limited to the following detailed list:

- Computer graphics;
- Image processing;
- Computer vision;
- Machine learning and deep learning;
- Pattern recognition;
- Object detection, recognition, and tracking;
- Part and semantic segmentation;
- Rigid and non-rigid registration;
- 3D reconstruction;
- Virtual reality/augmented reality/mixed reality;
- Computer-aided design/engineering;
- Human pose and behavior understanding;
- Autonomous driving.

### Guest Editors

Dr. Yiqi Wu

Dr. Yilin Chen

Dr. Lu Zou

### Deadline for manuscript submissions

15 September 2025

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
