Machine Learning Based Ubiquitous Localization, Indoor Positioning and Location Based Services

Message from the Guest Editors

We would like to invite you to contribute a paper to the Special Issue “Machine-Learning-Based Ubiquitous Localization, Indoor Positioning, and Location-Based Services”. This Special Issue addresses innovative developments, technologies, and challenges related to machine-learning-based ubiquitous localization, indoor positioning, location-based service (LBS) design, and implementation for ubiquitous and pervasive application scenarios. The Special Issue is seeking the latest findings from research and ongoing projects. Additionally, review articles that provide readers with current research trends and solutions are also welcome.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.
