

## Special Issue

# Machine Learning in E-services

### Message from the Guest Editors

This Special Issue will address the most recent advances in the introduction of machine learning techniques to improve and personalize e-services. Thus, contributions are expected to present original research on machine learning with real-world applications in e-services. Topics for this Special Issue include, but are not limited to the following:

- New machine learning algorithms for e-services.
- Benchmarking of machine learning alternatives in e-services.
- Adaptation and fine-tuning of machine learning in specific e-services domains.
- Machine learning in e-learning.
- Machine learning in e-health.
- Machine learning in e-government.
- Machine learning in e-commerce.
- Machine learning in e-Business.
- Machine learning in e-security.
- Machine learning in social networks.
- Machine learning in marketing.
- Machine learning for the development and deployment of e-services on cloud computing scenarios.

Welcome to contribute.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
