

Special Issue

Interactive and Collaborative Natural Language Processing Systems

Message from the Guest Editor

Transformer models have revolutionized the field of machine learning, particularly in natural language processing (NLP), and have demonstrated significant promise across various domains. This Special Issue focuses on the innovative application of transformer models in three critical areas: networking, social networking, and social IoT (Internet of Things). The versatility and scalability of transformers make them highly suitable for tackling complex tasks in these domains, where the data are often large-scale, dynamic, and interconnected. This Special Issue aims to highlight cutting-edge research, innovative applications, and future directions of transformer models across these interconnected domains. Both original research articles and review papers are invited, focusing on novel methods, applications, and real-world case studies.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
