

Special Issue

Computer-Integrated Manufacturing in Industry 4.0/5.0

Message from the Guest Editors

This Special Issue, entitled “Computer-Integrated Manufacturing in Industry 4.0/5.0”, aims to explore the advanced methodologies, technologies, and strategies that drive the evolution of smart manufacturing systems. The scope of this Special Issue spans the transformation of traditional manufacturing processes to highly adaptive, efficient, and personalized systems that not only optimize operational workflows but also enhance the interaction between workers and machines. We welcome the submission of studies that address the novel application of AI for predictive maintenance, augmented and virtual reality for training, the use of digital twins for real-time monitoring, and security frameworks that safeguard interconnected industrial environments. This Special Issue will serve as a platform for researchers and industry experts to contribute insights that support the seamless integration of advanced technologies into manufacturing, ultimately enhancing productivity, sustainability, and adaptability in the face of rapidly evolving industrial demands.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
