

## Special Issue

# Deep Learning-Based Real Time Approach for Image/Video Processing

### Message from the Guest Editor

Artificial intelligence provides new opportunities to enhance predictive models that can process a wide variety of image and video processing applications. Deep learning-based real-time signal processing, such as image and video processing, has been a topic of rigorous research over the last decade. Rapid scientific advances, particularly in the area of model development, have resulted in several incredible real-time tools that rely on signal processing. There are still, however, many tasks in the application of deep learning models, such as massive data necessities for training/testing and computing power. Our Special Issue aims to report the latest advances and trends concerning deep learning-based real-time approaches for image/video processing in relation to electronics issues. Papers of both a theoretical and applicative nature, as well as contributions regarding new advanced artificial learning and signal processing techniques for the electronics research community, are welcome.

### Guest Editor

Dr. Gwanggil Jeon

Department of Embedded Systems Engineering, Incheon National University, 119 Academy-ro, Yeonsu-gu, Incheon 22012, Republic of Korea

### Deadline for manuscript submissions

closed (30 April 2023)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
