

## Special Issue

# Emerging Trends in Planar Antennas and Propagation for Mobile Communication Systems

### Message from the Guest Editors

The introduction of 5G technology globally is driving radio access network densification, new network architectures, and innovative use cases with stringent performance requirements. This Special Issue aims to collect relevant papers describing the latest advances and prospects in antenna design for mobile communications. The objective of this Special Issue is to report a novel trend in the development of antennas and microwave components including active circuits and passive structures for mobile communication applications. The topic of interest covers design and modeling techniques, optimization techniques, synthesis methods, integration techniques, including but not limited to:

- 5G and beyond mobile communication
- MIMO antennas
- Antenna design challenges
- Reconfigurable antennas
- Integrated antennas for multi-wireless applications
- Mutual coupling reduction in MIMO antennas
- Fractal antennas
- Switchable antennas for wireless communication
- Miniaturization of mobile antennas
- UWB antennas for microwave imaging applications
- Microwave healthcare information systems and health informatics
- Electromagnetic compatibility
- Beamforming

### Guest Editors

Dr. Amir Haider  
Dr. MuhibUr Rahman  
Dr. Shabir Ahmad

### Deadline for manuscript submissions

closed (31 March 2022)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.4 days after  
submission; acceptance to publication is undertaken in 2.6  
days (median values for papers published in this journal in  
the second half of 2025).
