Natural Language Processing: From Deep Learning to Real- World Solutions

Message from the Guest Editors

In recent years, we have witnessed a significant advancement in the field of natural language processing with the extensive use of machine learning and deep learning and the increasing implementation of large language models. We invite researchers and practitioners working in different fields such as natural language processing, engineering, computer science, data mining, computational linguistics, and other related areas to submit novel research that focuses on language technologies and their applications to solving real-world problems. Research areas may include (but not limited to) the following:

- machine learning
- deep learning
- large language models
- multimodal NLP
- multilingual and cross-lingual NLP
- real-world applications of language technologies in specific domains

Guest Editors

Dr. Ivelina Stoyanova

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
