

Special Issue

Revolutionizing Signal and Information Processing: Theory and Applications (Invited Papers from APSIPA ASC 2023)

Message from the Guest Editors

This Special Issue is aimed at bringing together the latest research on cutting-edge technologies, innovative techniques, and new theories that have the potential to revolutionize the way signals and information are processed. The purpose of this Special Issue is to provide a platform for researchers to showcase their work on emerging technologies and their applications, novel algorithms, and innovative techniques that can change the field of signal and information processing. The scope of this Special Issue encompasses a wide range of topics, including but not limited to machine learning, deep learning, artificial intelligence, signal processing, image processing, audio processing, speech processing, natural language processing, data analytics, and big data processing. The Special Issue welcomes original research articles, reviews, and perspectives that address the challenges and opportunities in the field of signal and information processing. ***You are welcome to contribute!!!***

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
