

## Special Issue

# New Insights into Neural Network Methods for Natural Language Processing

### Message from the Guest Editor

In recent years, with the aid of developing technologies in computation, big data and new algorithms have been used to propose new solutions and targeting natural language processing (NLP), usually making reference to the fact that NLP has evolved from rule-based methods to statistical approaches. This growing research has led to the success of various NLP methods, such as word embeddings and deep learning methods together. The aim is for the progress of ongoing research and insights into the lessons learned from current advancements in deep learning and NLP application to lead to more advanced research. We invite a wide range of topics and types of work, including evaluations, methodologies, technological innovation, and design in the area of NLP. Authors will have an opportunity to present their ongoing work, including research, service, prototype, or products addressing one or more of the suggested topics as presented in the general call for participation.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
