

Special Issue

Applications of Sensor Networks and Wireless Communications

Message from the Guest Editors

Advancements in sensor networks and wireless communication have transformed numerous industries, opening up new avenues for collecting, analyzing, and communicating data in a wide range of settings. This Special Issue is dedicated to exploring the extensive array of applications for sensor networks and wireless communication systems, highlighting their profound influence across various fields.

We would like to invite researchers and practitioners to contribute their research outcomes in the area of the applications of sensor networks and wireless communication technologies. This special issue aims to explore into the multifaceted landscape of sensor networks and wireless communication applications, shedding light on innovative solutions, challenges, and future directions. Topics of interest include, but are not limited to, the following:

- Smart cities;
- Healthcare monitoring;
- Environmental sensing;
- Agricultural monitoring;
- Infrastructure monitoring;
- Smart industry;
- Smart transportation;
- Security and surveillance;
- Wildlife conservation.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
