

Special Issue

Network and Information Security

Message from the Guest Editors

In this Special Issue, we are pleased to invite front-line researchers and authors to submit original research and review articles on topics related to network and information security. Potential topics include the following:

- Cybersecurity and Internet of Things;
- Security of artificial intelligence;
- Cyber-physical systems;
- Security and privacy;
- Security of system architecture and design;
- Security algorithms;
- Cryptography and network/information security;
- Mobile system security;
- Cloud computing security;
- Protocols, systems, computers, and security;
- Quantum computing and cybersecurity;
- Post-quantum cryptography and security;
- Privacy-preserving protocols and design.

Researchers working in the fields of network and information security and privacy are encouraged to submit original research papers. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
