

Special Issue

AI Synergy: Vision, Language, and Modality

Message from the Guest Editors

This Special Issue, titled "AI Synergy: Vision, Language, and Modality", aims to explore the evolving intersections of computer vision, large language models, and multimodal data processing. This Special Issue invites pioneering research that demonstrates novel integrations and applications across these dynamic fields. As artificial intelligence continues to break barriers between data modalities, the synergy among visual, textual, and other data forms has unlocked remarkable advancements and practical applications. We encourage submissions that push the boundaries of how these technologies can work in tandem to enhance understanding, generate new insights, and solve complex problems.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
