

## Special Issue

# Emerging Trends in Secure and Mobile Networking

### Message from the Guest Editor

We invite you to submit your work to this Special Issue of *Electronics* on the subject area of “Emerging Trends in Secure and Mobile Networking”. Secure and mobile networks are a pillar in modern society that, together with current events, pushes research to new unprecedented requirements. Combining secure networking with mobility requires hardware, software, and networks that fulfil requirements such as energy efficiency, long range, high throughput, and low delay, which at first seem impossible to combine. These requirements are the basis of all current research trends related to 5G, FRMCSs (future railway mobile communication systems), the Internet of Things, Smart Everything (Cities, Healthcare, Homes, Logistics, Environment, Industry and Agriculture), and ITS (intelligent transportation systems). This Special Issue aims to showcase state-of-the-art research on how secure mobile networking supports research in other domains and leads the way for a combination of secure solutions that support future society requirements.

### Guest Editor

Prof. Dr. Nuno Cruz

Department of Electronics and Telecommunications and Computer Engineering, Instituto Politécnico de Lisboa, 1959-007 Lisboa, Portugal

### Deadline for manuscript submissions

closed (15 September 2023)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
