

Special Issue

Applications of Artificial Intelligence in Future Wireless Communication Systems

Message from the Guest Editors

This Special Issue encourages the submission of high-quality, innovative, and original contributions to future wireless communication systems, focusing particularly on the use of AI, deep learning, machine learning, and big data in wireless communications.

The list of possible topics includes but is not limited to the following:

Artificial intelligence for the convergence of communications, storage, and computing resources;
Distributed artificial intelligence and federated learning in wireless networks;
Internet of Things (IoT) and Industrial IoT applications in wireless communications;
Low latency in wireless networked control systems;
Cloud and fog computing-based radio access networks;
Wireless networks with multidimensional radio access;
Optimization of communication;
Novel design of deep-learning, machine-learning, pattern recognition and convolutional neural network (CNN) approaches for wireless system applications;
AI and wireless communication in healthcare;
Healthcare and AI
...

Guest Editors

Dr. Inam Ullah

Dr. Ateeq Ur Rehman

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
