Recent Developments and Emerging Trends in Power Systems and Smart Grids

Message from the Guest Editor

The objective of this Special Issue is to identify, address, and disseminate state-of-the-art research focusing on recent developments and emerging trends in power systems and smart grids. Submitted works should be original research papers and reviews with a substantial novel contribution towards the scope. The topics covered by the issue include (but are not limited to): Recent Developments and Emerging Trends in

- Distribution systems
- High Voltage
- Microgrids
- Power system control
- Power system monitoring
- Power system optimization
- Power system protection
- Transmission systems
- Smart grid cybersecurity
- Smart metering
- Synchrophasor technology

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
