

Special Issue

Privacy Protection in the Era of the Internet of Things

Message from the Guest Editor

This Special Issue will promote state-of-the-art research covering all aspects of security, privacy, and trust in IoT as it relates to addressing the privacy protection challenges that pertain to this cutting-edge research topic. High-quality contributions addressing related theoretical and practical aspects are expected.

Therefore, researchers are invited to submit their manuscripts to this Special Issue and contribute their models, proposals, reviews, and studies. **Keywords**

- Data security and privacy protection;
- Internet of Things and edge computing security;
- Trusted computing network;
- Wireless network physical layer security;
- Distributed collaborative attack and defense technology;
- Blockchain technology;
- Fine-grained access control;
- Secure data sharing.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
