

Special Issue

Security and Privacy in Networks and Multimedia

Message from the Guest Editors

This Special Issue intends to collect high-quality research and review articles concerning privacy protection and security in networks and multimedia processing. We also welcome academic articles that cover security and privacy policies related to IoT and multimedia services. The topics of interest include, but are not limited to:

- Reviews or surveys;
- New technological developments;
- Security architectures and platforms;
- Intrusion detection;
- Anonymization techniques;
- Access control;
- AI security;
- Multimedia services;
- Processing of encrypted multimedia;
- Privacy-preserving data mining;
- Secure multimedia distribution in cloud computing;
- Cryptographic protocols;
- Security and privacy in online social networks;
- Security and privacy issues in smart homes;
- Empirical research and case studies.
