

## Special Issue

# Machine-Learning-Enabled Big Data Analysis: Advancements, Applications and Challenges

### Message from the Guest Editor

We cordially invite the academic community and relevant industry partners to submit original research articles and reviews to this Special Issue, with a specific focus on the following themes:

- Scalable machine learning algorithms for big data analysis;
- Deep learning architectures for processing and analyzing big data;
- Feature selection and dimensionality reduction techniques for big data analysis;
- Ensemble learning approaches for big data analysis;
- Big-data-enabled edge intelligence;
- Transfer learning methods for leveraging big data across domains;
- Privacy-preserving machine learning techniques for big data analysis;
- Explainable and interpretable machine learning models for big data analysis;
- Online and streaming algorithms for the real-time analysis of big data;
- Machine-learning-enabled video/VR data compression and analysis;
- Machine-learning-enabled analysis techniques for IoT data;
- Advanced tools and techniques for big data visualization;
- etc.

### Guest Editor

Dr. Mubeen Ghafoor

School of Computer Science, University of Lincoln, Lincoln LN6 7TS, UK

### Deadline for manuscript submissions

closed (31 March 2024)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Control and  
Systems Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.4 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the second half of 2024).
