

Special Issue

Advanced RF/Microwave Circuits and System for New Applications

Message from the Guest Editor

This Special Issue will include papers on the emerging topic of RF/Microwave components, circuits and systems. RF/Microwave components and circuits play a key role in the development of communication systems, radar and IOT devices. With the rapid development of wireless communication technology, various RF and microwave devices and circuits are constantly being produced, also producing new systems and applications. New applications, in turn, have led to the creation of new RF and microwave devices and circuits. The goal of this Special Issue is to provide leading papers in the emerging area of advanced RF/Microwave components, circuits and systems. Topics of interest include, but are not limited to, the following:

- RF/Microwave passive components;
- RF/Microwave active device;
- RF/Microwave antenna and arrays;
- RF/Microwave wireless communication systems;
- RF/Microwave radar systems;
- IOT circuit;
- RF/Microwave test and measurement;
- EMC test and measurement;
- Novel RF/Microwave components;

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
