

## Special Issue

# New Advances of FPGAs in Signal Processing

### Message from the Guest Editors

We are pleased to announce a Special Issue of *Electronics* focusing on the latest advancements in field-programmable gate arrays (FPGAs) applied to signal processing. FPGA-based systems have been established as key technologies in a wide range of application fields, including radio frequency communications, audio and image processing, high-energy physics, and radar systems. This widespread use is mainly driven by their extreme flexibility for being reconfigured, capability of parallelizing tasks, low latency, and a remarkably high performance over other well-established technologies. We welcome original research articles and reviews that contribute significant insights into advancing the field of signal processing in FPGA-based systems. Submissions should address key challenges and propose innovative solutions to overcome the complexities of implementing signal processing algorithms in FPGAs.

### Guest Editors

Dr. Fernando Carrio

1. Conseil Européen pour la Recherche Nucléaire (CERN), Esplanade des Particules 1, Meyrin, Geneva 1211, Switzerland
2. Instituto de Física Corpuscular (CSIC-UV), Parc Científic de la Universitat de València, C/ Catedrático José Beltrán 2, Paterna E-46980, Spain

Dr. Tigran Mkrtchyan

Kirchhoff-Institute for Physics, Heidelberg University, Heidelberg 69120, Germany

### Deadline for manuscript submissions

15 November 2025

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
