

## Special Issue

# Resilience in IoT Networks

### Message from the Guest Editors

In this Special Issue, we focus on the resilience of IoT systems. Resilience can be defined as the ability of certain systems to recover and continue to function after being affected by an unexpected event. In IoT, resilience involves not only networking aspects but also the applications that facilitate deployment of the offered services. We invite submissions related to resilient IoT solutions, including but not limited to:

- Reconfigurable sensor networks
- Opportunistic networks (OppNets)
- Delay Tolerant Networks (DTN)
- IoT based on OppNets and DTN
- Resilient in long-range and short-range topologies
- Security issues in IoT
- IoT without Internet
- Hybrid IoT infrastructures
- Smart vehicular networks supporting IoT
- Simulation and modeling IoT protocols
- Smart devices and services
- Novel wireless standards (LoRa, SigFox, etc.)
- Intelligent routing for IoT
- Green computing
- Fog computing
- Smart collaboration for IoT
- Autonomic computing for smart cities

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
