# **Special Issue**

## AI-Powered Edge Computing for Next-Generation Communication Networks

### Message from the Guest Editors

Al-powered edge computing has emerged as a transformative enabler, providing distributed intelligence at the network edge to optimize resource utilization, automate operations, and facilitate the seamless integration of these demanding applications into next-generation communication networks. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Al-driven optimization for latency- and reliabilitydemanding applications (e.g., XR, autonomous vehicles, and industrial IoT).
- Machine learning-based resource management for 5G/6G edge networks.
- Real-time analytics and decision-making frameworks at the edge.
- Network slicing and orchestration powered by AI for demanding use cases.
- Predictive modeling for network conditions and application performance.
- Al-enabled energy-efficient and secure edge computing solutions.
- Applications of edge AI for smart cities, healthcare, and Industry 4.0.
- Distributed machine learning approaches for edge Al.

#### **Guest Editors**

Dr. Georgios P. Koudouridis

Prof. Dr. Sotirios K. Goudos

Dr. Panagiotis Sarigiannidis

#### Deadline for manuscript submissions

15 September 2025

## About the Journal

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

#### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
