# Technological Advancements and Cutting-Edge Innovations for Smart and Sustainable Healthcare

## Message from the Guest Editors

Topics of interest include (but are not limited to) clinical decision support, patient safety, artificial intelligence and machine learning, knowledge representation for healthcare, and clinical informatics. Papers discussing wearables, healthcare innovations, statistics and quality of medical data, security and privacy will also be considered. Submissions must focus on novel informatics methods and their comparison to the current approaches.

## About the Journal

## Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
