

## Special Issue

# Challenges and Opportunities in Signal and Power Integrity: Theory and Applications

### Message from the Guest Editors

Signal and power integrity (SI/PI) are essential and interlaced aspects of contemporary advanced digital and hybrid electronic system design. This Special Issue wishes to offer the opportunity to engineers and scientists to exchange state-of-the-art developments in the field of signal and power integrity applied to any kind of high-speed circuit and system, to the modeling, design, validation, and testing of electronic hardware.

Keywords:

- signal and power integrity
- high-speed digital circuits
- analog circuits
- RF systems
- IC and packages
- materials performance
- signal and power integrity measurements and sensors
- numerical simulations and EDA tools
- electromagnetic interferences
- Artificial Intelligence
- Internet of Things applications

*Welcome to publish your excellent work here, fast  
publication and high visibility!*

---

### Guest Editors

Prof. Dr. Antonio Orlandi

Department of Industrial and Information Engineering and Economics,  
University of L'Aquila, via G. Gronchi, 18, I-67100 L'Aquila, Italy

Prof. Dr. Francesco de Paulis

Electromagnetic Compatibility and Signal Integrity Laboratory,  
Department of Industrial and Information Engineering and Economics,  
University of L'Aquila, 67100 L'Aquila, Italy

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
