Selected Papers from International Conference on Smart Media and Applications (SMA 2020)

Message from the Guest Editors

The 9th International Conference on Smart Media and Applications (SMA 2020), held in Jeju Island, Korea, 17–19 September 2020, will provide an excellent forum for addressing research issues in smart media and applications. SMA 2020 focuses on innovative solutions to complex problems in all areas of industry, engineering, and sciences using advanced techniques in smart media and computer science applications. This Special Issue on “Selected Papers from SMA 2020” is expected to publish excellent papers presented at SMA 2020 on topics including the following:

- Intelligent/cloud/distributed computing and systems
- Artificial intelligence, image/audio processing, computer graphics, HCI
- Information processing, information security, mobile communication, IOT
- Content convergence, game, animation, web/mobile, and smart learning
- Design management/marketing/methodology, UI/UX
- Media convergence, storytelling and production creation/publishing
- e-business, ERP, social network, smart logistics
- Smart life/finance/agriculture, smart city, and transformation

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
