

Special Issue

Advances in Optical Communication and Optical Computing

Message from the Guest Editor

With the development of information technology, optics technology has emerged as a game-changer in various scientific, technological, and industrial domains, offering significant advantages over traditional electronic components and systems. Optical technologies offer high-speed data transmission, increased bandwidth, and energy efficiency, making them essential for addressing the growing demands of modern communication and computing systems. This Special Issue aims to highlight recent advancements and breakthroughs in optical communication and optical computing, exploring their transformative impact on various domains. In this Special Issue, original research articles and reviews are welcome. Research areas may include, but are not limited to, the following:

- Advanced modulation and coding techniques for optical communication;
- Next-generation optical networking architectures;
- Optical materials and devices for optical communication systems;
- Optical interconnects and network-on-chip architectures for neuromorphic computing;
- Novel approaches in optical signal processing and optical computing algorithms.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
