

## Special Issue

# Next-Generation Optoelectronic Devices: Semiconductor Materials and Sensing Technologies

### Message from the Guest Editors

The evolution of information technology has driven sensor development into a new era, advancing IoT, Industry 4.0, big data, AI, robotics, and digital health, requiring sensors to become more connected and intelligent. The vision of “everything connected” demands sensors perform diverse tasks beyond conventional devices. Advanced optoelectronic sensory devices, providing non-invasive, rapid, and precise optical perceptions, are becoming critical IoT tools. Progress in multimodal, biomimetic, AI-enhanced, all-in-one optoelectronic sensing materials and devices is advancing smart electronics toward low-power and superior functionality. This Special Issue welcomes original articles and reviews in areas including:

- 2D material-based optoelectronic devices
- Quantum dot-based optoelectronics
- Perovskite-based optoelectronic devices
- Organic optoelectronics
- Inorganic thin-film optoelectronics
- Photodetectors and photovoltaics
- Optoelectronic sensory hardware and systems
- Computational optoelectronics and machine vision
- Neuromorphic optoelectronic devices and reconfigurable systems.

We look forward to receiving your contributions.

---

### Guest Editors

Prof. Dr. Zhuoran Wang

School of Integrated Circuits and Electronics, Beijing Institute of Technology, Beijing 100081, China

Dr. Wenhao Ran

School of Integrated Circuits and Electronics, Beijing Institute of Technology, Beijing 100081, China

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
