

## Special Issue

# Cryptography and Cybersecurity: Addressing Modern Threats

### Message from the Guest Editors

In a time defined by rapidly transforming digital ecosystems, the rise of AI-driven technologies, and increasingly sophisticated cyber adversaries, the demand for resilient cryptographic solutions and holistic cybersecurity and privacy strategies is more critical than ever. This Special Issue seeks to gather innovative research that advances the theory, design, and practical deployment of security, cryptographic, privacy enhancing and AI/ML-driven technologies capable of countering both current and emerging threats. We welcome high-quality contributions spanning foundational theory, applied methodologies, system-level implementations, and interdisciplinary approaches. Topics of interest include, but are not limited to, the following:

- Cyber-Security
- Cryptography
- Machine Learning for Cybersecurity
- Data Protection and Privacy

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
