

Special Issue

Internet of Things for E-health

Message from the Guest Editor

As the Internet of Things continues to advance, its integration with e-health promises to enhance healthcare accessibility, improve patient outcomes, and transform the way healthcare services are delivered and experienced. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Remote Patient Monitoring;
- Wearable Devices and IoT in mHealth;
- IoT-enabled Telemedicine;
- Data Security and Privacy in IoT-driven E-Health;
- IoT-enabled Medication Management;
- IoT and Chronic Disease Management;
- IoT in Emergency Medical Services;
- Healthcare Data Analytics with IoT;
- Ethical and Legal Considerations in IoT-driven E-Health.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
