# Special Issue

# Tools and Languages for Object-Oriented Modeling and Simulation

### Message from the Guest Editor

This Special Issue on Tools and Languages for objectoriented modeling and simulation solicits papers in this area, including but not limited to the following subtopics: object-oriented modeling and simulation languages and tools, cyberphysical and multidomain system modeling and development, Industry 4.0, hardware modeling (electrical, hydraulic, multi-body systems, etc.), integrated hardware-software modeling, metamodeling (Modelica, UML, SysML, etc.), methods and standards for co-modeling and co-simulation (e.g. FMI, SSP, DCP), design optimization and sensitivity analysis, numeric and symbolic methods for simulation, parallel and distributed simulation, verification and validation, requirement modeling, real-time and hardware-in-theloop simulation, Internet of Things and embedded systems modeling, experiences of application of modelbased product development, integration of machine learning models, and object-oriented systems modeling.

## **About the Journal**

### Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

#### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
