

## Special Issue

# Advances in Learning on Graphs and Information Networks

### Message from the Guest Editors

This Special Issue explores cutting-edge developments in machine learning techniques applied to graph-structured data and information networks. As our world becomes increasingly interconnected, the ability to effectively analyze and learn from complex relational data structures has become paramount across diverse domains. As more complex relationships between entities are being modeled, advancements in learning methods for graphs and networks are increasingly relevant across a wide range of applications. This Special Issue brings together cutting-edge research that explores the latest advancements in learning algorithms, representation techniques, and their applications in graph-structured data and information networks. Key topics include:

- Graph Neural Networks (GNNs)
- Graph Embeddings
- Graph-based Semi-Supervised and Unsupervised Learning
- Applications in Complex Networks
- Dynamic and Temporal Graph Learning
- Explainability and Fairness in Graph Learning

---

### Guest Editors

Dr. Danushka Bandara

Department of Computer Science and Engineering, Fairfield University,  
Fairfield, CT 06824, USA

Dr. Soumyakant Padhee

Quantitative Management, Lenoir Rhyne University, Hickory, NC 28601,  
USA

Dr. Koray Ozcan

Latent AI, Inc., Skillman, NJ 08558, USA

---

### Deadline for manuscript submissions

15 January 2026

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
