

## Special Issue

# Innovations in Electromagnetic Field Measurements and Applications

### Message from the Guest Editors

This Special Issue aims to gather high-quality original research that report recent advances in electromagnetic measurements and applications in the whole electromagnetic field (EMF) spectrum, focusing on novel and innovative approaches and techniques in both public and occupational settings. Topics include but are not limited to the following:

- Novel EMF measurement techniques, sensors, tools and protocols in emerging applications and scenarios;
- Novel instrumentation, test and validation procedures required to demonstrate compliance of electronic devices with the safety guidelines;
- Novel EMF monitoring devices, systems and techniques for characterization of personal and environmental exposures in public and occupational settings;
- Design and use of novel sensors/devices for electromagnetic measurements and applications;
- EMF measurements and applications in smart cities and smart factories, 5G technologies, electric vehicles, wireless power transfer and charging facilities;
- EMF measurements and applications in the energy and healthcare sectors, industry 4.0 applications and industrial settings in manufacturing and automotive sectors.

---

### Guest Editors

Dr. Efthymios Karabetsos

Prof. Dr. Günter Vermeeren

Dr. Ourouk Jawad

Dr. Maria I. Christopoulou

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
