

## Special Issue

# Ultra-Intelligent Computing and Communication for B5G and 6G Networks

### Message from the Guest Editors

This Special Issue focuses on three key scenarios in AI research envisioning B5G and 6G services—autonomous and sensing systems, emergent intelligence, and collaborative and swarm intelligence. The Special Issue promotes their transfer into practical applications, for developing intelligent mobile systems and pursuing artificial intelligence applications for mobile contents, platforms, networks and devices. The Special Issue focuses on topics related to ultra-intelligent computing and communication, which include, but are not limited to

- AI for Image Processing and Multimedia
- AI Applications for Networking and IoT
- AI for Control and Decision Systems
- AI Applications for Mobile Communication
- AI for Energy, Computer Systems and Semiconductor Device
- AI for Data Analysis, Big Data and Cloud
- AI for Neuroscience and Neuroengineering
- AI for eHealth
- AI Foundation

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
