

Special Issue

Artificial Intelligence Empowered Internet of Things

Message from the Guest Editors

This Special Issue aims to introduce the latest breakthroughs in theoretical research, technological innovation and practical application of the combination of AI techniques and IoT, as well as the prospects for its future development. The topics of interest include, but are not limited to, the following:

- Sensor data anomaly detection;
- Data collection and storage;
- Missing data imputation;
- AI and IoT big-data-analytics-based sensing techniques;
- AI and IoT big-data-analytics-based communication techniques;
- Resource management and task scheduling of computing power networks;
- Data security and privacy protection;
- Intelligent data analysis;
- Interpretability for IoT big data analytics;
- New development and combination with other advanced techniques, e.g., cloud computing, digital twins, etc.;
- Relevant industry standards and platforms;
- AI-empowered smart cities.

Guest Editors

Prof. Dr. Xiangjie Kong

College of Computer Science and Technology, Zhejiang University of Technology, Hangzhou 310023, China

Prof. Dr. Giovanni Pau

Faculty of Engineering and Architecture, Kore University of Enna, 94100 Enna, Italy

Deadline for manuscript submissions

closed (15 August 2024)

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
